

SAMMILANI MAHAVIDYALAYA

INSTITUTIONAL DISTINCTIVENESS

Our college always strives to improve its information and communication technology so that all the official and academic work can be performed digitally with ease. To reduce the huge work load of the office staff and the teachers as well, the college wanted to move towards a digital system of operations. As a result, all the computers of the college are upgraded time to time with proper maintenance and purchase of software. Local area network connecting all the computers is upgraded. Local-based server has been converted to cloud-based server. Apart from that, Enterprise Resource Planning (ERP) software has been purchased in June 2022. The ERP has a cloud-based server and it facilitates to retrieve automatically information such as particulars of the students, templates of their Identity Card with bar code, sending SMS, sending email, online fees payment and also fees collection reports. The students of the college are availing these facilities. Licensed Google Workspace (Business plus plan) with 10TB cloud storage has been purchased on 15.02.2022. It has smart inbox by Gmail along with Docs sheet, Google chats and Google Meet with recording option. All these have made conducting of seminars with maximum 500 participants at a time. With the help of Google Workspace (erstwhile G-suite) all the online seminars, webinars and conferences may be conducted at any time. New membership of DELNET (Developing Library Network) has been taken on 29.0.2022. It provides various types of e- journals and e-books on different subjects through static IP. Students and teachers of the college are availing this facility. The college has obtained ISO 9001:2015 Certification (Quality Management System). The college has done Green Audit, Energy Audit and Environment Audit for the first time in 2021-22.
