

Research and Development SubCommittee

Sammilani Mahavidyalaya

Research & Development committee of the institution was formed to promote excellence in research among faculties and students. The main purpose is to develop a research environment in the institution and establish relationship with research institutions and other colleges. This is achieved by giving encouragement and guidance to departments for organizing webinars, seminars, conferences and workshops. In the process the faculties can be motivated to conduct research along with activities like paper presentation, conducting project works and sensitizing students about the world of research from the under graduate level.

Objectives of Research and Development SubCommittee

To sensitize Departments and faculty on potential research and development spheres areas

To encourage students to participate in poster and model competitions, quizzes, and debates and wall magazine preparation

To facilitate collaborative research projects and activities with other colleges and professional bodies for teachers and students (through project works/internships)

To establish an integrated and interdepartmental research environment to promote research culture

To motivate faculty and students to publish and present research papers/articles at various national and international conferences and seminars by providing appropriate financial grants

To provide infrastructural facilities to Departments and faculty members in order to facilitate and promote research.

To organize workshops, conferences, and seminars on recent trends in relevant fields of study as well as IKS, research methodology and IPR

To offer financial assistance (full/partial) to encourage the staff and research scholars to present research papers in conferences/seminars.

To provide infrastructural support and study leave as far as practicable to staff who register for their Doctoral Degrees

Composition

Chairperson: Dr. Chandan Kumar Jana

Convenor : Dr. Sharmila Chakraborty

Members

Dr. Srikanta Malakar

Smt. Sangita DeySarkar

Dr. Bapon Maity

Smt. Lpsy Mohanty Roy

Dr. Bipan Dutta

Dr. Monolina Sarkar

Future Prospects and Plan of work

To encourage publication of books, research papers, etc., by providing financial assistance and infrastructural facilities to departments

To bring out research journals and books with ISSN or ISBN in order to support the academic contribution of teachers and students

To offer research facilities to students by providing adequate infrastructure in the college

Establishment of IPR cell, Incubation centre and ecosystem in college premises for creation and transfer of knowledge and information
