3. Internship: The HEI has offered an internship course as stipulated by the affiliating University on Fashion designing only for girls. It helped them to develop a new skill that could be beneficial in near future.

4. Kanyasree Prakalpa: On an average about 70% of the total girl students received Kanyashree every year. In this session 85 girl students have received the scholarship.

5. There is a student representative in the IQAC who is a girl student. The College took this initiative to encourage participation and leadership in governance .

Problems Encountered and Resource Required:

- Many women, especially from economically weaker backgrounds, struggle to afford higher education due to financial dependence on families.
- Motivation among girl students are required regarding taking other courses along with their studies.
- Introduction of CBCS and New CCF syllabus required continuous 10 to 4 class thus many students found it difficult to find time during the class hours hence could not join the courses.
- The students find it inconvenient to come to college for the courses every day.
- Since it is a general degree college, there is no dedicated teacher for the courses. More fund is required.
- Women often face challenges in balancing education with household responsibilities, limiting their academic and extracurricular participation.
- Traditional mindsets and cultural expectations often restrict women's participation in higher education and leadership roles.
